

MC156 - First Atlanta - Sandy Springs - Printer Installation (Windows)

1. Please click on this [link](#) to download 156-64bit-drivers.zip
2. Double click the downloaded archive then select 156-64bit-drivers.exe and extract it to your Desktop.
3. Go to your Desktop.
4. Under **Windows Vista, 7, 8, 8.1 or 10** right click on 156-64bit-drivers.exe, **Run as Administrator**, choose Yes on the prompt.

Each time you want to print you would be prompted to enter your **print code**. If you'd like to embed your print code please go to your **Devices & Printers** menu, select the office printer, right click on it, choose **Printer Properties** in the middle, then go to **Advanced** tab, then **Printing Defaults** (bottom left), then **Detailed Settings** tab, then **Job Setup** (under Menu) and enter your print code under **User code**. Then click **Apply** then **OK** and close the rest of the windows. Repeat with the other office printers.

Note: Windows XP has been officially discontinued and we no longer support it. If you are using a 32-bit operating system though, the 32-bit drivers can be downloaded from [this](#) link.
